correct the **ORTHODONTIC** problem early before it gets worse

affordable

effective

proven

Naturally, you want the best for your child. If you have concerns about how your child's teeth and jaws are developing, consider the options even though your child is only 5 to 7 years old.

Ortho-Tain,™ a world leader in Orthodontic Appliances, has products that have successfully treated over 1,000,000 cases of various ages. For example, **Nite Guide**™ **Appliance** can prevent and correct many problems in the 5 to 7 year old by guiding the erupting adult teeth into the mouth straight. Your child can start school with a beautiful smile and may even avoid the extraction of teeth later on. Ask your orthodontist how **Nite Guide**™ by **Ortho-Tain**,™ can put a smile on *your* child's face.
